

Required Steps for Website to Work Properly

1-) Go to link:

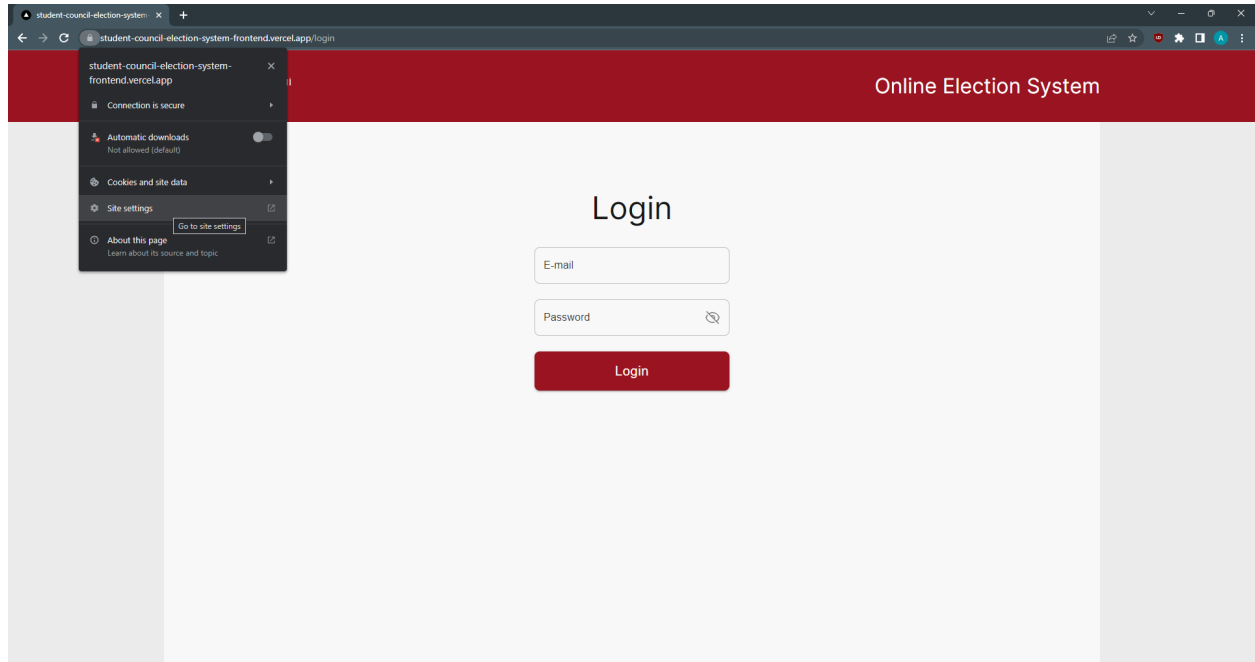

<https://student-council-election-system-frontend.vercel.app/login>

2-) Click on the “lock” icon at the top left:

3-) Click on the “Site Settings” Option

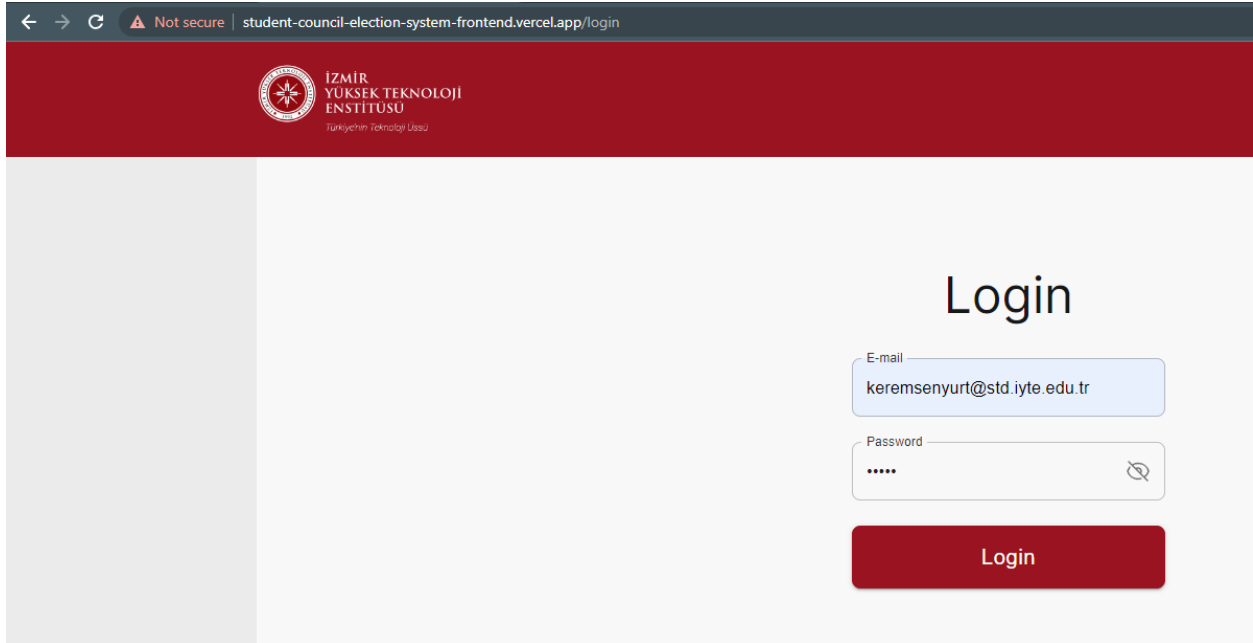

4-) At the opened page, scroll down and find “Insecure Content”:

5-) Click on it and choose the option “Allow”:

6-) Now go back to the website screen and reload it. At first, the website will look normal. Try to login (it will fail) and you should see the change (Look at the top left):

← → ↻ ⚠ Not secure | student-council-election-system-frontend.vercel.app/login
